ROOM REPORT

These inspiring Gulfshore interiors channel the best of their picturesque surroundings.

NEW AND IMPROVED

After Hurricane Charley ravaged Captiva in 2004, this guest cottage required serious renovations. Tasked with restoring and improving the small building, architect Joyce Owens proposed linking an adjacent garage to the cottage via a mono-pitched roof to add extra square footage. "Inside," Owens says, "it was crying for simplicity that would respect the volume and light. It had to be carefully and cleverly modernized so as to maintain the finishes and the character."
